Cedar Cottage is a haven with a distinctive country feel that is accentuated by its cedar panelling and a cosy gas fire. But this charmer is definitely seaside. Hosts Will and Suzette have spared no effort or detail to make this the perfect getaway – and they clearly relish sharing their little piece of paradise.

Enter the lush garden and the first thing you notice is the entertainment courtyard, which features a wood-fired pizza oven. Expect hours of enjoyment cooking your own and, if you like,

the hosts will give you lessons to start you off – they can even supply homemade pizza bases. Inside, the cottage is delightfully appointed with personal touches and all the comforts of home. A private rear garden with outdoor spa completes the picture.

Cedar Cottage is really a resort in miniature that makes a perfect base for exploring the surrounding area. Swim with the dolphins in Cockburn Sound, go fishing, diving, sailing, or admire the penguins before snorkelling off Penguin Island. There are three beaches within a two-minute drive of Cedar Cottage, giving you plenty of choice. Plan to stay for a week and truly soak up the beachside life.
