

Year 12 school outcomes 2005

All Queensland schools

The 2005 school reports on Year 12 outcomes were published in Queensland metropolitan and regional newspapers on Monday 3 April 2006. The data provide a snapshot of school outcomes for students who finished Year 12 in 2005.

The public release of this data is part of the Queensland Government's *Changes to School Reporting* initiative, announced in October 2004. It has been compiled from data provided to the QSA from Queensland schools and the Queensland Tertiary Admissions Centre.

The data show that Queensland's Year 12 students are graduating from high school with the skills and qualifications to follow a range of rewarding work, further education and training pathways.

Explanatory notes about how to read the table are included below.

READING THE TABLE

The data in the table (beginning on page 2) is arranged in 17 columns.

- 1. School**
Lists school names. Secondary colleges and TAFE colleges offering Year 11 and 12 are included in this table.
- 2. Locality**
Indicates the city, town or suburb where the school is located.
- 3. Gender**
Indicates if the school is co-educational (C), or enrolls only male (M) or female (F) students.
- 4. Breadth of curriculum**
Shows the number of subject area categories offered by a school, grouped under the following category headings:

Subject area categories	
1	Agriculture (includes Equestrian Studies)
2	Business Education
3	Computer Education
4	English
5	Health and Physical Education
6	Home Economics
7	Industrial Technology
8	Languages other than English
9	Mathematics (includes Mathematics/Computing)
10	Religious and Ethical Studies
11	Science (includes Marine Studies)
12	Social Sciences (includes Legal Studies)
13	The Arts (includes Art and Performing Arts)
14	Tourism and Hospitality

The largest number possible in this column is 14.
- 5. Number of Certificates of Post-Compulsory School Education (CPCSE)**
Students with an impairment or learning disability who have completed at least 12 years of schooling are eligible to receive a CPCSE. Students may receive a Senior Certificate and a CPCSE.
Columns 6–10
Columns 6 to 9 show four stand-alone categories of students awarded Senior Certificates. Student outcomes are grouped according to whether the students were OP-eligible or OP-ineligible, and whether the students completed VET studies. Column 10 is the total of Columns 6 to 9.
- 6. OP-eligible with no VET qualifications**
Shows the number of OP-eligible students who did not gain any Vocational Education and Training (VET) qualifications. Numbers in this column may include students who have completed VET competencies. VET qualifications are achieved when a student completes the required units of competency. VET units of competency are the building blocks of vocational study.
- 7. OP-eligible with VET qualifications**
Shows the number of OP-eligible students who completed one or more VET qualifications. School-based apprentices who have completed the maximum proportion of their apprenticeship allowed at school and who were also OP-eligible are reported in this column.
- 8. OP-ineligible with no VET qualifications**
Shows the number of students who were not eligible for an OP and did not gain a VET qualification. Numbers in this column may include students who have successfully completed VET in school competencies but not in sufficient quantities or in a sequence to achieve a VET qualification.
- 9. OP-ineligible with one or more VET qualifications**
Shows the number of students who were not eligible for an OP but have completed sufficient VET competencies to be awarded one or more VET qualifications. School-based apprentices who have completed the maximum proportion of their apprenticeship allowed at school and who were not eligible for an OP are reported in this column.
- 10. Total Senior Certificates awarded**
This total is the sum of the numbers in columns 6 to 9. It shows the total number of Senior Certificates awarded at the school.
- 11. Number of students completing VET competencies**
Shows the number of students completing at least one VET module or unit of competency.
- 12. Number of VET qualifications awarded**
Shows the number of VET qualifications awarded. Some students may receive more than one VET qualification. Numbers in this column could therefore exceed the number of students at the school who undertook VET studies.
- 13. Number of students completing or continuing a school-based apprenticeship or traineeship (SAT)**
Shows the number of students who completed a SAT or who are choosing to complete it at TAFE after finishing school. SATs allow students to work with an employer and train towards achieving nationally recognised VET qualifications while completing their senior studies.
- 14. Percentage of OP-eligible students with OP 1 to 15**
Shows the percentage of students at each school who receive an OP between 1 and 15. Around 80% of all OP-eligible students in the OP1 to 15 range are offered a tertiary place through the Queensland Tertiary Admissions Centre (QTAC).
- 15. Percentage of students with Senior Certificates with one or more VET qualifications**
Shows the percentage of the total number of students per school who received a Senior Certificate and also achieved one or more VET qualifications.
- 16. Percentage of students with Senior Certificates with OP-eligibility or with one or more VET qualifications**
Shows the percentage of the total number of students gaining a Senior Certificate per school who received an OP and/or at least one VET qualification.
- 17. Percentage of students receiving a tertiary offer**
Shows the percentage of students applying for a tertiary place through the Queensland Tertiary Admissions Centre (QTAC) who received an offer of a tertiary place through QTAC. The percentage of students entering VET courses is understated because QTAC data on VET includes only full-time students entering a VET diploma. The data does not include part-time diplomas and certificates and apprenticeships and traineeships.
