

Outstanding Cambridge Learner Awards, Saudi Arabia
24, 26 and 28 February 2013

Welcome

We are delighted to congratulate learners from Saudi Arabia on their academic achievements in the June 2012 Cambridge examination series. The Outstanding Cambridge Learner Awards recognise exceptional learner performance around the world in Cambridge examinations. The awards

reflect the tremendous talent among learners, and acknowledge the dedication and commitment of both teachers and parents.

Teachers and learners can be confident that Cambridge qualifications are recognised by universities and employers worldwide, providing learners with a passport to global success. They have a proven reputation for being an excellent preparation for university, employment and life – supporting Cambridge learners to be confident, responsible, reflective, innovative and engaged.

It is extremely encouraging to see the growth in popularity of Cambridge examinations in Saudi Arabia, with learners achieving outstanding results across all award categories.

I am very proud to congratulate all learners on their outstanding examination performance. 2012 was an excellent academic year for Cambridge learners in Saudi Arabia who have demonstrated enormous talent, hard work and a strong passion for learning.

It is rewarding to witness learners' dedication and commitment to education, and to acknowledge the support provided by schools and families. We hope that learners will be greatly encouraged by this recognition of their academic success.

Every time a learner performs well in their Cambridge examinations, they open up a world of opportunities. We are proud of every Cambridge learner represented in the awards for their commitment and hard work. We are always interested to gain feedback from learners on their experiences with Cambridge. Please keep in touch and tell us your story.

Cambridge is pleased to thank our partner, the British Council, whose continued support, dedication and commitment to education in Saudi Arabia have made a terrific contribution to the achievements and lives of many learners.

We hope that learners will be encouraged in their future education and careers by this recognition of their academic success. We look forward to congratulating more learners from Saudi Arabia for their achievements in the future.

William Bickerdike
Regional Manager, Middle East,
North Africa and Pakistan
Cambridge International Examinations

Cambridge International Examinations

Cambridge International Examinations is the world's largest provider of international education programmes and qualifications for 5 to 19 year olds. We are part of the University of Cambridge, one of the world's top universities and trusted for excellence in education. Our qualifications are recognised by the world's universities and employers.

We understand education. More than 9000 schools in over 160 countries are part of our Cambridge learning community. Our mission is to provide excellence in education, and our vision is that Cambridge learners become confident, responsible, reflective, innovative and engaged.

Every year, hundreds of thousands of learners gain the Cambridge qualifications they need to enter the world's universities. We believe in setting educational standards – and then encouraging learners to exceed them.

Understanding learners' needs around the world means listening carefully to our community of schools, and we are pleased that 98 per cent of Cambridge schools say they would recommend us to other schools.

We are a part of Cambridge Assessment, a department of the University of Cambridge and a not-for-profit organisation. We invest constantly in research and development to improve our programmes and qualifications.

The British Council

The British Council is the United Kingdom's international organisation for educational opportunities and cultural relations. We build engagement and trust for the UK through the exchange of knowledge and ideas between people worldwide. One of the main bridges for building cultural relations is our work in education. Our clients and partners in 110 countries include individuals, institutions and government departments, with whom we aim to build relationships and create opportunities.

The British Council in Saudi Arabia was established in 1967. Over the past 43 years we have worked closely with schools, contributing to our aim of promoting cultural relations by adding an international dimension to students' education. Last year we delivered over 50,000 UK exams to individuals in different fields. We also work with professional partners to bring you the best of innovation through festivals, performances and exhibitions, in addition to a range of projects, programmes, workshops and seminars.

We are glad to have this opportunity to share your success with us through the British Council's partnership with Cambridge International Examinations.

Introduction to Cambridge programmes and qualifications

The popularity of Cambridge programmes and qualifications is growing fast. Cambridge offers international education programmes for 5 to 19 year olds, leading to world-class qualifications. Our programmes and qualifications carry Cambridge values into classrooms all over the world. As part of the University of Cambridge, we believe education must enhance the ability of students to learn and succeed throughout life.

A Cambridge international education is a series of four stages for learners: Cambridge Primary, Cambridge Secondary 1, Cambridge Secondary 2 and Cambridge Advanced. Each stage builds on learners' development in the previous stage and schools can take them in almost any combination. Cambridge programmes and qualifications are refreshed regularly to make sure they offer up-to-date, relevant curricula and are inspired by the best in educational thinking.

Our education programmes and qualifications help Cambridge schools and teachers prepare their learners to be:

- **confident** in working with information and ideas, their own and those of others
- **responsible** for themselves, responsive to and respectful of others
- **reflective** as learners, developing their ability to learn
- **innovative** and equipped for new and future challenges
- **engaged** intellectually and socially, ready to make a difference.

Cambridge also provides comprehensive support and resources for both Cambridge learners and teachers.

Outstanding Cambridge learners in Saudi Arabia

We are pleased to acknowledge the success of all learners who passed Cambridge examinations during the June examination series. It gives us great pleasure to recognise the exceptional performance of those learners who have been awarded the highest marks in a subject.

Our awards recognise outstanding performance in Saudi Arabia, except our 'Top in the World' award which acknowledges exceptional performance globally.

We congratulate learners who have been recognised for 'High Achievement' based on outstanding performance in subjects which are not so widely taken in Saudi Arabia.

Cambridge awards are calculated using strict criteria which operate to maintain high and consistent standards worldwide across all subjects and qualification levels. Learners are eligible to receive awards if they have attained the highest standard marks in a subject providing that the minimum grade and standard mark thresholds for the award category have been met.

Cambridge learners are eligible to gain awards in the following categories:

- Top in the World for Cambridge IGCSE
- Top in the World for Cambridge International AS Level
- Top in the World for Cambridge International A Level
- Top in Saudi Arabia for Cambridge IGCSE
- Top in Saudi Arabia for Cambridge International AS Level
- Top in Saudi Arabia for Cambridge International A Level
